## MYE FM System Dual Diversity Transmitter

### A Simple Solution that Delivers Tons of Entertainment Choices

The MYE FM transmitter features the most comprehensive state-of-the-art wireless technology including the first to offer a Dual Diversity Antenna System assuring the most reliable static and drift-free transmission.

#### FM TRANSMITTER FEATURES:

- Dual Diversity Antenna System – static and drift-free transmission
- LED FM Frequency Display
- Automatic Audio Level Control – enjoy distortion free sound without concern for loud commercials or audio track spikes
- Detachable Mounting Bracket – provides for easy and secure installation on virtually any surface including walls

## MYE FM System Receiver

The MYE Entertainment FM receiver provides audio from any ceiling or wall mounted TV monitor connected to an FM transmitter. Exercisers simply select the desired TV and enjoy the audio from their favorite TV programs. MYE FM receivers feature advanced performance and work with MYE FM transmitters or existing FM transmitters from all major fitness entertainment companies.

No TV? No problem. The MYE FM receiver is ideal for cardio equipment facing away from monitors. Users may still enjoy FM radio programs and music.

#### MYE FM RECEIVER FEATURES INCLUDE:

- Dual FM Program Mode – store FM transmitters and local FM radio stations separately allows users to switch between TV audio and FM radio stations
- Compatible with FM Transmitters – from all major fitness entertainment companies (so receiver upgrade is easy)
- FM Radio – 20 preset stations or scan and select personal choice
- Pro-EQ Tones – five distinct EQ tones
- INTELLIJACK – signals alert for faulty headphone jack
- New Secure Grip Mounting Band – combines traditional and new mounting technologies for quick and secure installation on any cardio machine
